We are again happy to have the pleasure of noting the increased interest in his behalf; for while he is fitted for a higher position, the office of Register is one of no small importance to the State, and for which, of all others, Mr. Bryan is more eminently qualified. He is an excellent scribe, a safe and reliable business man; a most popular county clerk, an efficient lawyer, and what is as good as anything that our party needs, he is an eloquent and persuasive speaker. As a genileman and a Democrat, he stands above reproach; at d it nominated for the office of Regisproach; and it nominated for the office of Register, as we conscientiously believe he will be, his soon as they shall be notified by telegraph that clarion voice will resound through the hills and the reading of the message has been co valleys of "Old Kentucky," bringing joy to the in Congress; which will probably be on Monday hearts of the yeomanry, and strength to the ranks of the good old Democracy. "Your letter has but one professed object : that we should declare that it is not your fault that the match between yourself and Mr. Staunton has not taken place. To this the reply might be made in two words. I cannot conceive it possi ble that any one should impute that failure to you; nor am I aware that any one has done so But in the circumstances, I shall, perhaps, not be lamed if I go somewhat further into the matter. In the general circumstances of the case, I con-ceive that Mr. Stauston was quite justified in declining the march. The fact is understood that he has for years been engaged in labors, which must, whatever arrangements might be made, greatly interfere with his entering into a serious stant practice, and so far the failure of the match is the less to be regretted. Nor can I doubt the correctness of his recent statement, that the time barely necessary for the match itself, could no be spared, without serious loss and inconvenience both to others and to himself. But I cannot bu think, that in all fairness and considerateness, Mr Staunton might have told you of this long before he did. ATTEMPT OF A FATHER TO STEAL HIS OWN CHILD. Some years ago, the wife of a man residing in Kentucky, died, leaving one child, a little girl. Previous to her death, she induced her husband to consent that the child should be given to its grand-parents, residing in Bracken county, Ky., a few miles back from the river, with whom the little girl has since resided. Subsequently, the father removed to Felicity, Ciermont county, in this State, and muried a second time. He then wished to get possession of his danghter, and attempted to do so by course of law, but the court

decided against him.

On Sunday last, accompanied by his brother, he visited the house of the grand-parents, in Bracken county, and taking the calld upon his knee, waited an opportunity to escape withit. He finally made a rush for the door, and was met on the porch by the grandfather, who, not being able to stop him, called for his gun. The father, with the child in his arms, drew a pistol upon the old gentleman, but without firing, made his escape rapidly toward the river. Much excitement was created, and several persons immediately started in pursuit, and overtook the father within a few steps of the river. The child was rescued, and again placed in possession of the grand-parents, who were overloyed at recovering their little then returned to this side of the river, and the affair ended for the present .- Cin. It appears that two boys, named Felix Brasher and John Walden, had been out hunting, and on 1 do of 20,000 their return home, fired upon what they supposed was a deer, but which proved to be an Irishman named Edwin Marcy. He had been intoxicated and wandered out among the bushes, and fell asleep. Both boys fired on him, and twenty-six shot, our informant states, took effect in his thigh. It is just possible that he may recover .- Elizabethtown Democrat.

SENT ON FOR TRIAL .- We are informed by an 225 do attentive correspondent at Greensburg, that the parties implicated in the murder of Sympson, by the confession of Hunter, were sent on for further trial by the examining court at Campbells-ville. Anti-D, sp spiic Elixir:

Dr. James Willi Ms.—Dear Sir: It gives me great pleasure to know that you are again preparing your medicine for the cure of Dyspecps, for many of my acquaintances have repeatedly asked me where it could be procured, knowing that I had been cured by it. As I think that a public acknowledgment of the great benefit I have received from the use of your medicine is not only due to you, but may be useful to others, I now make it. For several years I suffered from Dyspeps, which increased to such an extent that my health and constitution were rapidly sinking under it. I was e-mpolied to restrict myself to the most simple food, and even that I could not digest; I felt a loss of strength, disinclination to exercise, and (as you have it in your advertisement) a general feeling of depression and indescribable weariness. In the year 123°, hearing from others high recommendation of your Anti-Dyspeptic Elixir, I procured and used it with the most happy effect; und r its influence, languor and weariness gradually passed away, and my appetite returned, which I could gratify with impurity. Ten years have now elapsed, and my confidence in the curative powers of your medicine has of course increased, for it completely cured me when I failed to obtain relief from any other source.

MOSELEY'S Tubular Wrought Iron

ARCH B IDGES AND ROOFS THESE Bridges and Roofs have now been fully tested in this vicinity, and it is universally conceded that they cannot be excelled. The Roofs are wholly of Wrought Iron. or mixture of Wood and Iron; Sheeting always Iron.

The Bridges are wholly Wrought Iron except the floor, which is wood, like the floors of ordinary Bridges.

We are prepared to make these structures in any quantities, at prices about as follows.
Railroad Bridges. 50 feet span 8,000 lbs. \$17 50 per feet, lineal.

Railroad Bridges. 50 feet span 8,000 lbs, \$17 50 per feet, lineal.

Common Road or Turnpike, 50 feet span, 2,600 lbs. \$5.75 per foot lineal.

Roofs, all iron; 50 feet width of building, \$25 per 100 square feet, part wood and part iron, from \$12 to \$20 per square.

Increase of span of bridges or width of building makes an increase of price, but the increase in price is no more than the increase of wooden structures.

We can furnish Iron of every size to work into Bridges and Roofs and Railroads, or other companies buying the right to use them and the iron of us, can make their own structures, one-third less than the above prices. Our structures weight only from 1-4 to 1-10 that of wood, difference in freight, for a long distance buys our work. In a few days we will have at our factory, 497 West Third street in this city, four different specimens of our Roof, where the publicean inspect them to their satisfaction. We be them to give us a call, as all our work is warranted, and we ask no pay on ordinary jobs until the work is done and approved. Payments being secured on contracting. Webster City, Iowa, Nov. 9, 1857.

Dr. A. G. Brago—Dear Sir: For more than three years I had been afflicted with inflamed eyes in an aggravated degree, and tried various Physicians, and several nostrums, to no effect; I was induced by Dr. Baum to try the Arctic Liniment, and in two months was nearly well. My little daughter was afflicted in the same manner for the same time, and during a portion of the time was entirely blind in one eye. Japplied your valuable Liniment, and her eyes are now perfectly sound. Thus have I, with one two-bit bettle, cured my daughter's eyes and my own, besides puring the Rhenmatism in my back. I would not be without your valuable remedy in my house.

Very truly.
